

Supplemental Materials Development Certificate

Reconnect with the joy of teaching and learning by creating materials that spark curiosity, foster connection, and support students beyond the textbook.

Program Overview

Discover how to create open, adaptable supplemental course materials that deepen student learning. Engage with an expert facilitator and a community of peers to explore universal design, accessibility, and authentic assessment. Walk away with practical, research-based resources, and fresh inspiration to elevate your teaching and empower student success.

Fall, Spring & Summer Cohorts

6

Asynchronous Modules

Certificate & Microcredential

3

Optional Live Sessions

Optional AI Skill Building Activities

Join a six-week, cohort-based program with self-paced modules and live sessions. Prefer a shorter format? **Contact us for our two-day workshop option**, in-person or online.

"This program was a novel and enriching experience for me... I gained valuable project management skills and resources. The one-on-one and group sessions were instrumental in boosting my confidence in OER development."
